**FOR IMMEDIATE RELEASE** (October 1<sup>st</sup>, 2010)

## **LEVELTON CONSULTANTS ACQUIRES SABATINI EARTH TECHNOLOGIES INC.**

*Levelton Consultants Ltd. of Vancouver, BC has acquired Sabatini Earth Technologies Inc. of Calgary, AB, augmenting Levelton's engineering, air quality and environmental science capabilities in Alberta.*

**Richmond, British Columbia, October 1, 2010** -- Tom Cotton, P.Eng., President of Levelton Consultants Ltd., announced the acquisition of Sabatini Earth Technologies Inc. (SETI) effective October 1, 2010.

An Alberta-based consulting firm established in 1987, SETI provides geotechnical engineering, environmental sciences, hydrogeology, materials testing and laboratory services to a broad range of public and private sector clients.

Augmenting Levelton's current air quality and environmental capability in Alberta, the acquisition of SETI extends Levelton's reach within the Alberta market. SETI has a tremendous professional team with considerable experience on residential, commercial, industrial and infrastructure projects. The senior management of SETI including Paul Sabatini, P.Eng, Ken Hugo, P.Geol, Andrew Korytynski, P.Eng and Enrico Lopez will continue to be part of the leadership team with Levelton.

Overall management and direction of the combined Alberta operations will be handled by Oliver Gepreags, P.Eng., a Levelton team member since 2000 and manager of operations in Calgary since 2009. Managing Levelton's new Edmonton office will be the responsibility of Armando Abello, P.Eng.

"Sabatini Earth Technologies Inc. is a key acquisition which will allow Levelton to expand the full range of its expertise into the Alberta market." said Tom Cotton, President of Levelton Consultants Ltd. Levelton sees Alberta and Saskatchewan as key growth areas, and is aggressively pursuing the expansion of its engineering, environmental and technical services in Western Canada."

## **ABOUT LEVELTON CONSULTANTS LTD.**

*Established in 1966, Levelton is headquartered in Vancouver and has a staff over 200 people offering engineering, technical and laboratory services in the fields of geotechnical engineering, construction materials technology, environmental sciences, building science, corrosion prevention and metallurgy. The combined strengths of SETI and Levelton will allow the firm to offer an extended range of services to the Alberta market.
